

Learning & Teaching

Do you want a week full of laughs and smiles?

Would you like to see a new side of Cambodia?

Do you want to do 100% community service?

Are you interested in teaching
fun, interactive lessons?

If you answered “Yes” or even “Maybe” to these questions, then participating in Learning & Teaching is **right for you!**

During the week, you’ll **design and teach** lessons to students in Grades 1 and 2 at Cambodian elementary **schools in Takmao**. They love learning through fun activities such as **games and stories**, and their **smiles** will give you a lot of **great feedback and memories**.

You don’t need to know Khmer, but speaking a little can help a lot. You’ll also get a chance to **paint and improve** how their schools look. After a week of this, **you’ll wish you could do it forever!**

This program is a small part of the Cambodia Teacher Training Project.
